EXECUTIVE PROFILE

International executive and Industrial Engineer with 15 years of experience leading technology and innovation projects in 10+ countries across the Americas and Europe, at the intersection of business strategy, technology leadership, and innovation. Knowledge and experience in developing strategies across the entire production, distribution, and retail chain of goods and services. Experienced on both vendor and client sides, acting as a natural bridge between technology teams and executive stakeholders. Measurable track record in complex transformation and innovation programs, building digital businesses, and leading organizations through change. Executive committee member since 2018. Actively involved in organizing and directing the World Business Forum for senior executives in 6 countries, and host of its events. Bilingual in Spanish and English.

WORK EXPERIENCE

WOBI — World Business Forum
Jun 2022 – Present

CDO – Chief Digital Officer

Management forums and content for senior executives · NYC, Milan, Madrid, Sydney, Mexico City & Bogota.

- Restructured and lead the e-learning business (B2B + B2C): new platforms, customer base growth, and strategic partnerships to increase recurring revenue.
- Lead the global speaker and content strategy, with direct relationships with world-renowned management thought leaders; host of the World Business Forum in Spanish and English. See full list of speakers.
- Led the digital transformation of the commercial area and the launch of subscription models; accountable for all technology projects across the organization.
- Involved in an ongoing M&A process (18+ months): integration, technology alignment, and business continuity.

GERDAU – SIDERPERU
Jan 2020 – Jun 2022

CIO – Chief IT & Digital Transformation Officer

Steel manufacturing · Gerdau Group (Brazil, NYSE: GGB) · ~3,500 employees

- Led the IT department (20+ person team), ensuring business continuity and technology evolution across the entire company.
- Built the Innovation & Digital Transformation department from scratch: strategy, team building, process definition, technology roadmap, and project portfolio.
- Led 25 Digital Transformation projects with an estimated EBITDA impact of +USD 10M over 5 years, 10 prototypes, and 3 IT projects with CAPEX over USD 5M.
- Drove cultural transformation: built capabilities in agility, innovation, and technology adoption across the company.

ORACLE
Aug 2015 – Dec 2019

Applications Sales Director | *Jul 2019 – Dec 2019*

- Led the Applications Sales strategy and team, building long-term relationships with clients, partners, and business lines: +10% revenue and +15% average deal size.

Solution Engineering Sr. Manager | *Feb 2018 – Jul 2019*

- Led the Applications Pre-sales team across all industries and portfolio solutions (ERP, Supply Chain, HR, Customer Experience). Shifted sales from transactional to strategic, increasing the annual renewal rate by 10%.

Senior Sales Consultant | *Aug 2015 – Feb 2018*

- Led the pre-sales process, solution architecture, and design, achieving +50% new clients per year. Prepared technical architectures, proofs of concept, and product demos.

ALICORP
Mar 2014 – Aug 2015

Commercial Projects Analyst | *FMCG industry leader · ~8,500 employees*

- Managed the technology project portfolio for the commercial area (traditional and modern channels), aimed at increasing revenue, customer satisfaction, and sales force productivity.

LOGFIRE
Mar 2013 – Mar 2014

Senior Project Consultant | *Supply chain technology startup · later acquired by Oracle*

- Led supply chain technology projects: design, development, implementation, and post-go-live support. The store network grew from 550 to 800 locations, fill rate rose from 80% to 95%, and productivity improved by 40%.

AVON
Feb 2012 – Sep 2012

Home & Fashion Buying Intern

- Supported product launch and relaunch campaigns and local repurchasing of fashion, home, and jewelry lines.
