## Chiarella Bencan Cordero

PROFESSIONAL PORTAL — MADRID, SPAIN

# CONNECTING IDEAS, EVOLUTION & BUSINESS IMPACT

15 years building bridges between technology, people and results across the Americas and Europe. This is my journey, told the way I would tell it in an interview, not the way it reads on a CV.

> I currently live in Madrid, with full flexibility and availability to relocate. I am comfortable with any format: 100% on-site, hybrid or remote.

> I am interested in exploring executive positions (C-Level, Director, Head, VP) in technology, digital transformation, leadership of highly complex projects, product or strategy, where I can contribute both strategic vision and the ability to execute.

## Host of the World Business Forum, innovation and technology projects, and more

I joined WOBI to lead the digital e-learning ecosystem and ended up involved in many more things: technology projects, content creation, hiring and speaker relations. I have even hosted the World Business Forum on several occasions. I have had the privilege of sharing the stage with global management leaders such as:

Amy Cuddy · Andre Agassi · Brené Brown · Carl Lewis · Daniel Goleman · Francis Ford Coppola · Michael Phelps · Muhammad Yunus (Nobel Peace Prize) · Nouriel Roubini (predicted the 2008 financial crisis) · Paul Romer (Nobel Prize in Economics) · Peter Diamandis · Randi Zuckerberg · Stephen M.R. Covey

**CIO · GERDAU–SIDERPERU** siderperu.com.pe ↗

### Building an innovation and digital transformation area from scratch

After my first year at Gerdau–SIDERPERU, I was appointed CIO. I built the plant's Innovation and Digital Transformation area, led a team of more than 20 people, and we delivered 25 digital transformation and innovation projects and pilots in two years. One of them, in 2021, was an AI project to predict energy peaks at the plant, long before "AI" became the buzzword.

**ORACLE — APPLICATIONS SALES AND PRE-SALES** oracle.com ↗

### On the vendor side

I went from leading pre-sales to becoming a commercial director. I worked on hundreds of commercial projects across all industries and throughout Latin America; for years I traveled almost every week to a different country. I learned the pain points of every area of a business and the application solutions that address them: ERP, SCM, CX and HR. There I learned to translate complex technology into business value and to build long-term client relationships, a foundation I use every day as an executive on the client side.

### The first real projects

At LogFire I led technology projects for the supply chain. The company was acquired by Oracle shortly after, my first M&A. At the same time, at Alicorp I managed the technology portfolio of the commercial area of one of the largest FMCG companies in Peru.
